Lti alpenhotel Kaiserfels ★★★★★

Iti alpenhotel Kaiserfels –

Hold your event in one of the most beautiful holiday regions of the Kitzbühel Alps

The Austrian market town of St. Johann in Tyrol with around 9,000 residents is located in the heart of the Kitzbühel Alps surrounded by a magnificent mountain landscape.

Whether in summer or winter, the extensive offering of leisure time activities has something for every taste.

In these dream-like surroundings, you will find the Iti alpenhotel Kaiserfels **** which, with its peaceful central location, provides the right environment for small workshops, team-building/motivational events and incentive events.

Available for exclusive booking: Executive Lounge & Rock Bar

Executive-Lounge

The Executive section is located on the 4th and 5th floors of the hotel. It has more than 9 rooms, 4 of which are double rooms, 4 junior suites and 1 Kaiser suite. The Executive Lounge* on the 4th floor allows you to hold extravagant conferences for 6 to 8 people and it is especially well-suited for Executive Board Meetings. On the sunny terrace you can enjoy the view of the Wilder Kaiser, before moving inside for a more cozy atmosphere. Beverages and entertainment are available for the entire duration of the event.

Rockbar

The rock bar (external partner) is a special venue for evening events. The Après-Ski chalet is located directly at the hotel and can also be booked as a special event room for casual seminars, presentations and meetings.

* The Executive Lounge can only be booked in combination with the rooms on the Executive floors.

Activities

In cooperation with our partner Kaisersports and other professional providers, we provide you with a large selection of team-building and incentive activities in the beautiful region of the Kitzbühel Alps. (The following activities are examples. Transfers can also be booked).

Hiking

A hike on the Kitzbühel Horn, approx. 4 hours, medium degree of difficulty, combined with a memory challenge. This block can either be formed with GPS devices, as a traditional scavenger hunt or as orienteering (with stamps at the stations).

Climbing & Teambuilding

The Hornpark climbing forest offers various challenges on different courses with various degrees of difficulty. The teams move blindly through a "spider web" for example or over a slackline course – accompanied by professional guides, of course.

Then the wealth of ideas from the participants is needed for raft building in small groups. There are no blueprints or pre-drilled holes – the participants are tasked with building a raft that will hold all of them. The finished designs are naturally immediately put to the test. Duration: 6-7 hours

On 2 wheels

A wide variety of exercises are carried out on a mountain bike tour (medium degree of difficulty) around the lime stone. All kinds of fun can be had here with short sprints, orientation tasks on the Pillersee and a short quiz to test your knowledge at the end of the tour. Duration: approx. 5 hours

BBQ Team Workshop

Under professional guidance, the participants learn tricks and tips about all aspects of grilling. Prepared by various teams with the aid of top-notch experts, a 4-course meal is cooked and then happily consumed by the merry band. In this way, the barbecue becomes an unforgettable experience and the participants can directly apply what they have learned at home.

Naturally, other activities and evening events are also possible. Please ask us!
